

To whom it may concern,

Conbiz Company has been representing Trisun company inc. in the Czech market for over 6 months. Trisun imports and export raw materials for the food and drinks industry around the world since 1990.

Conbiz is assisting our company to locate potential clients and to develop our business in the Czech Republic. The cooperation between the two companies is on a daily basis.

I would like to point out that Conbiz representatives show knowledge and a deep understanding of the Czech market, are devoted and the cooperation between us is very productive.

During 2013 Conbiz representatives arrived for a business visit to Israel, where they deepened their understanding of the beverage Israeli market. During the visit we held a brain storming where we have learned as well, on the characteristics of the Czech market, which helped us to receive decisions regarding our course of action when entering the Czech market.

I strongly recommend Conbiz to whomever that would like to develop their business in the Czech Republic. The representatives who work with us have learned quickly the complex field of trading drinks and concentrated fruit juices. Within few months of working together, they helped us to close a contract with one of the leading food companies in the Czech Republic, a time that is considered very fast in the beverage market, all of this due to the professionalism and dedication of the Czech team.

Mr. I. Adut
General Manager
Trisun (Israel) Ltd.
