Subject: Recommendation letter for the company - Conbiz

We have contacted Conbiz after receiving a warm recommendation about its integrity, we requested Conbiz's assistance opening a company (Ltd.) in the Czech Republic.

From the first meeting we received all the necessary information regarding the required documents needed in an orderly and clear fashion, in addition for explanations on the entire information for starting a business. Conbiz representatives, Petra in particular, led us from this point on until we received all the company's papers.

Even after the company was established, we referred to Conbiz regarding business process and service providers in the Czech Republic. We always received fast answers, with warm and nice attitude, all in Hebrew.

Now we have several businesses in the Czech Republic and we are very happy to have known Conbiz. It is clear to us that if needed, we will be using this company's services in the future.

I strongly recommend Conbiz for any Israeli trying to start a business in the Czech Republic.
